

Ludwig-Maximilians-Universität München is a leading research university in Europe. Since its founding in 1472 it has been committed to the highest international standards of excellence in research and teaching.

The Institute of Medical Education, LMU University Hospital, **LMU Munich** is looking for a

Doctoral Researcher (m/f/x)

(75%, TV-L E13, from 01.10.2025, 3.75 years)

About us

The DFG-funded Collaborative Research Centre **SHARP** 'Simulation-based learning in higher education: Advancing research on process diagnostics and personalised interventions' contributes to theory-building on personalising learning using simulations in higher education. As a joint research context, SHARP focuses on diagnosing and intervening as two highly relevant professional practices in many academic professions.

The subproject **C02** 'Professional vision in diagnosing visual problem-solving strategies for graphs in physics and medicine', explores the conditions for providing effective peer feedback with simulations in medical education, specifically in the context of graphs, and is currently looking for a doctoral researcher. The position is located at the Institute of Medical Education, LMU University Hospital (Director Prof. Martin Fischer) in collaboration with the Chair of Physics Education (Prof. Jochen Kuhn).

You can find an overview of all sub-projects and open positions here: <http://www.trr419-sharp.de/>

Your tasks and responsibilities

Your tasks will include

- planning, preparing and conducting empirical studies on simulation-based learning
- analysing data
- contributing to scientific publications.

Your qualification

- You have a very good Master's degree in the field of medical or health sciences education, educational science, or learning sciences.
- You are interested in interdisciplinary collaboration and working in research teams.

- You have very good knowledge of social science research methods and statistics.
- You have experiences in planning and conducting interdisciplinary empirical studies (related to medical or health or science education would be an advantage).
- Experiences with multimodal process analyses (especially eye tracking-analysis) and software for evaluating and managing complex data (incl. machine learning algorithm) would be an advantage. You have very good written and spoken English skills.

Benefits

- We offer the opportunity to gain further academic qualifications, also to obtain a doctorate in physics, or learning sciences.
- Contributing to the CRC SHARP, you will become part of an interdisciplinary group of researchers working in an excellent research environment to significantly advance higher education theory and practice.
- The CRC provides all its members with tailored support, coaching and supervision, including special support for international researchers.
- You will be paid an attractive salary at the pay-scale 0.75 FTE of TV-L E13. Your contract will be limited to 3.75 years.
- Your workplace is located in Munich and easily accessible by public transportation (U6).
- LMU has signed the "Diversity Charter" and is committed to diversity among its employees. We actively promote gender equality.

We welcome applications from women and other groups that are currently underrepresented in the academic system.

People with disabilities who are equally as qualified as other applicants will receive preferential treatment.

Contact

Your detailed application includes a cover letter, your CV and copies of your transcripts and certificates.

Please submit your application via our online portal by 30.06.2025 at the latest. Further information can be found at <http://www.trr419-sharp.de/>.

If you have any questions, please contact Prof. Dr. Martin Fischer (mrfisher@lmu.de).

In the course of your application for an open position at Ludwig-Maximilians-Universität (LMU) München, you will be required to submit personal information. Please be sure to refer to our [LMU Privacy Policy](#). By submitting your application, you confirm that you have read and understood our data protection guidelines and privacy policy and that you agree to your data being processed in accordance with the selection process.
