Ludwig-Maximilians-Universität München is a leading research university in Europe. Since its founding in 1472 it has been committed to the highest international standards of excellence in research and teaching.

The Chair of Education and Educational Psychology at **LMU Munich** is looking for a

Research Associate (m/f/x)

(75%, TV-L E13, from 01.10.2025, 3.75 years)

About us

The DFG-funded Collaborative Research Centre **SHARP** 'Simulation-based learning in higher education: Advancing research on process diagnostics and personalised interventions' contributes to theory-building on personalising learning using simulations in higher education. As a joint research context, SHARP focuses on diagnosing and intervening as two highly relevant professional practices in many academic professions.

The subproject **C06** "Promoting motivation- and emotion-related diagnostic skills in pre-service teachers: Effects of personalised feedback and scaffolding in video-based simulations", targets pre-service teachers' skills in identifying emotionally and motivationally critical classroom situations through video-based simulation. The position is located at the Department of Psychology, Research Unit Educational Psychology and Learning Sciences (Prof. Anne Frenzel), in collaboration with the Research unit Formal and Informal Learning (Prof. Doris Lewalter) at TUM.

You can find an overview of all sub-projects and open positions here: http://www.trr419-sharp.de/

Your tasks and responsibilities

Your tasks will include

- planning, preparing and conducting empirical studies on simulation-based learning
- analysing data
- contributing to scientific publications.

Your qualification

- You have a very good Master´s degree in the field of psychology, educational science, or learning sciences.
- You are interested in interdisciplinary collaboration and working in research teams.

- You have very good knowledge of social science research methods and statistics.
- You have experiences in planning and conducting empirical studies.
- Experiences with psycho-physiological measures and/or generative AI open-ended answer coding would be an advantage.
- You have excellent German and very good written and spoken English skills.

Benefits

- We offer the opportunity to gain further academic qualifications.
- Contributing to the CRC SHARP, you will become part of an interdisciplinary group of researchers working in an excellent research environment to significantly advance higher education theory and practice.
- The CRC provides all its members with tailored support, coaching and supervision, including special support for international researchers.
- You will be paid an attractive salary at the payscale 0.75 FTE of TV-L E13. Your contract will be limited to 3.75 years.
- Your workplace is centrally located in Munich and easily accessible by public transportation.
- LMU has signed the "Diversity Charter" and is committed to diversity among its employees. We actively promote gender equality.

We welcome applications from women and other groups that are currently underrepresented in the academic system.

People with disabilities who are equally as qualified as other applicants will receive preferential treatment.

Contact

Your detailed application includes a cover letter, your CV and copies of your transcripts and certificates.

Please submit your application via our online portal by 06.07.2025 at the latest. Further information can be found at http://www.trr419-sharp.de/.
